Forest engineer

PESCA Environnement is a dynamic fast-growing company that provides multidisciplinary environmental services. We are looking for **two forest engineers** who would like to participate in the advancement of projects in this field.

You will perform technical tasks and supervision connected with management, the exploitation of forests and conservation as well as with the protection of forest resources and the environment.

You will work in the following areas of activity:

- Assure environmental monitoring of projects taking place in the forest environment
- Assure the compliance of the contractual requirements for the customer
- Coordinate the activities of field teams
- Plan and manage forest inventories and related studies
- Analyse the results of the inventories
- Draft reports and make recommendations

We are looking for someone who:

- Maintains good relationships with clients
- Enjoys diversified tasks
- Is organised

We are seeking the following profile:

- Bachelor's degree in Forest Resource Management
- Member of the Ordre des Ingénieurs forestiers du Québec (OIFQ)
- Five years of pertinent experience
- Mastery of digital representation software such as Arcview 9.0
- Mandatory bilingualism (French and English)
- Knowledge of consulting engineering (an asset)

You will hold
a **permanent, full-time position**
with **competitive benefits**

2 positions available in Carleton-sur-Mer
on the Gaspé Peninsula,
one of the world's most beautiful regions!

Employment begins: March 2010

Field work – Flexible schedule – Frequent travel
