## Geomatician

PESCA Environnement is a dynamic fast-growing company that provides multidisciplinary environmental services. We are looking for a **geomatician** who would like to participate in the advancement of projects in this field.

You will be involved in collecting, analysing and interpreting geospatial data and using them for applications pertaining to natural resources, forestry, engineering, environment and land use planning.

You will work in the following areas of activity:

- Collecting, managing and up-dating geospatial data
- Managing and integrating data bases containing geographical information
- Processing statistics
- Interpreting aerial photographs
- Exchanging data with outside organisations and designing visual simulations

We are looking for someone who:

- Maintains good relationships with clients
- Enjoys diversified tasks and team work
- Is organised

Job requirements:

- Bachelor's degree in geomatical engineering, applied geomatics (environment) or the equivalent
- Five years of pertinent experience
- Mastery of digital imaging software such as ArcGIS 9.3, AutoCAD civil 3D, Mapinfo, Photoshop, Freehand
- Mastery of digital mapping techniques, interactive graphic design, design and drafting software (CAD), conventional and computerised plotting tools
- Mandatory bilingualism (French and English)
- Knowledge of consulting services (an asset)

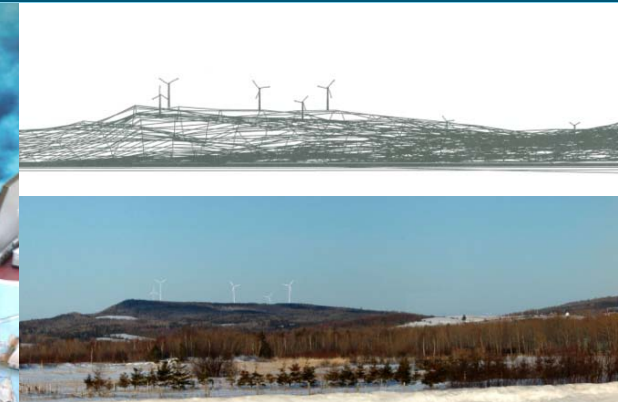

You will hold  
a **permanent, full-time position**  
with **competitive benefits**

1 position available in Carleton-sur-Mer  
on the Gaspé Peninsula,  
one of the world's ten most beautiful regions!

Field work – Flexible schedule
