Civil engineering technician

PESCA Environnement is a dynamic fast-growing company that provides multidisciplinary environmental services. We are looking for **civil engineering technicians** who would like to work for the promotion of projects in this field.

Working with the PESCA team, you will be supervising construction work under the oversight of the head of our engineering department. You will participate in the management of projects of an environmental nature. Your particular skills will contribute to the production of estimates as well as drawings and specifications; land surveying, and the drafting of technical reports.

You will work in the following areas of activity:

- Environmental and municipal engineering
- Hydraulic, erosion, shoreline stabilisation
- Engineering related to the construction of wind farms

We are looking for someone who:

- Loves working in a multidisciplinary team
- Maintain good relationships with clients
- Loves field work
- Is autonomous, diplomatic and socializing
- Is organized

We are seeking the following profile:

- Diploma of college studies (DEC) in civil engineering techniques or the equivalent
- Two years of pertinent experience
- Mastery of Autocad and Civil 3D software (an asset)
- Mastery of written and spoken French
- Availability to work outside of the Gaspé region

You will hold
a **permanent, full-time position**
with **competitive advantages**

in Carleton-sur-Mer, on the Chaleur Bay shore in the Gaspé Peninsula, one of the most beautiful regions in the world!

Field work – flexible hours – frequent movements
